I. Main economic indicators

Monetary developments

In April 2022, the money supply was expanded by Afl. 17.6 million to Afl. 5,422.4 million, compared to March 2022, resulting from increases in both net foreign assets¹ (+Afl. 9.1 million) and net domestic assets (+Afl. 8.5 million) (Chart 1).

Money, as a component of broad money, surged by Afl. 13.5 million to Afl. 3,336.8 million, resulting from an increase in demand deposits (+Afl. 14.3 million) and a decrease in money in circulation (-Afl. 0.9 million). The rise in demand deposits was due to growth in deposits denominated in Aruban florin (+Afl. 12.9 million) and deposits denominated in foreign

currency (+Afl. 1.5 million). In addition, quasi-money expanded by Afl. 4.1 million to Afl. 2,085.6 million due to an increase in time deposits denominated in Aruban florin (+Afl. 10.2 million) and a decline in savings denominated in Aruban florin (-Afl. 5.5 million).

In April 2022, the expansion in net foreign assets of the banking sector was due to net purchases of foreign exchange of Afl. 269.7 million from the public, mostly related to foreign exchange revenue from tourism exports. These were partly offset by net sales of foreign exchange of Afl. 260.6 million to the public, mainly associated with payments for goods imports (Table 1).

The rise in the domestic component of the money supply was caused by a surge in domestic credit (+Afl. 20.0 million) and a decrease in non-credit-related balance sheet items (-Afl. 11.4 million). The growth in domestic credit resulted from higher net claims of the banking sector on the public sector (+Afl. 12.7 million), as well as higher claims of the banking sector on the private sector (+Afl. 7.2 million). The expansion in net claims of the banking sector on the public sector was the result of a decline in government deposits (-Afl. 12.7 million). The increase in claims of the banking sector on the private sector (Chart 2) was caused by higher consumer credit (+Afl. 6.9 million) and housing mortgages (+Afl. 2.7 million), and a decrease in loans to enterprises (-Afl. 2.4 million).

Inflation

The consumer price index (CPI) for April 2022 noted a 4.7 percent rise year-over-year (YOY) compared to a 4.0 percent increase (YOY) for March 2022 (Chart 3).

Source: Centrale Bureau of Statistics

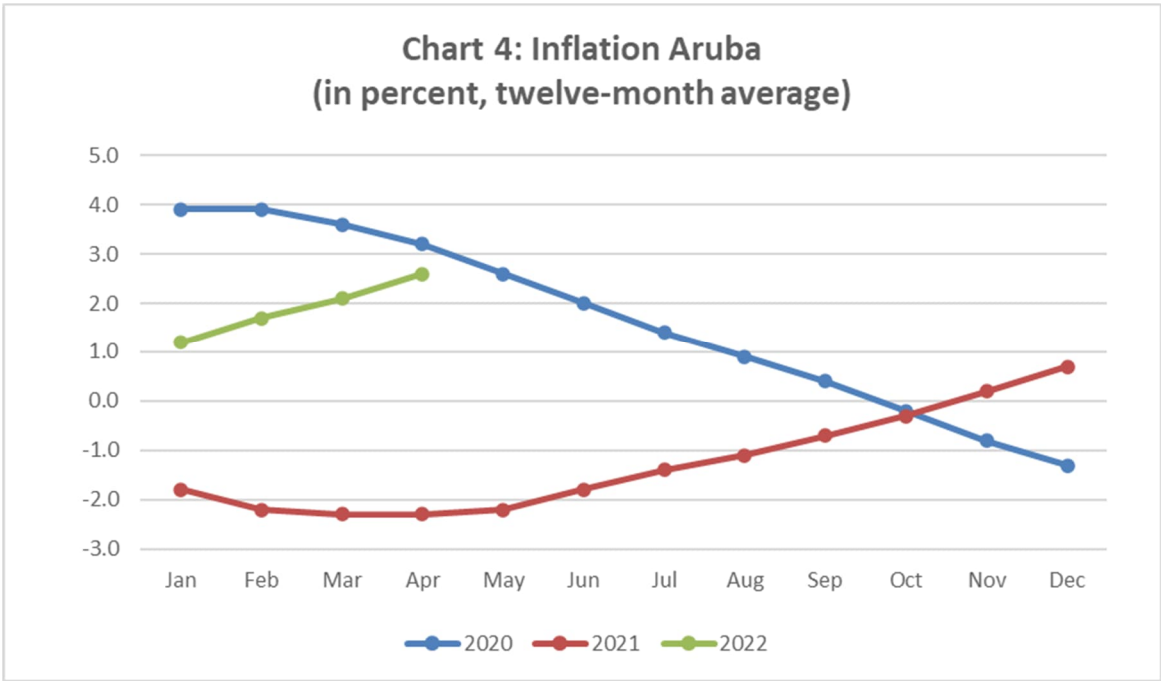

The main contributor to this increase was the "Transport" component. In addition, the "Food and Non-alcoholic Beverages," "Recreation and Culture," "Restaurants and Hotels," "Clothing and Footwear," "Household Operation," and "Miscellaneous Goods and Services" components also noted increases. The components "Communication" and "Health" noted decreases, while the other components remained unchanged. Furthermore, by excluding the effect of food and energy², the core CPI increased by 2.2 percent (YOY) (Table 2).

² Partly affects the housing and transport components.

Government

Total government revenue amounted to Afl. 80.3 million in April 2022, Afl. 19.1 million more than the same month of the previous year.

The rise in government revenue resulted from an increase in tax revenue (+Afl. 22.8 million) and a decrease in nontax revenue (-Afl. 3.7 million).

The growth in tax revenue was driven by expansion in income from turnover tax (B.B.O./B.A.V.P.) (+Afl. 5.4 million), wage tax (+Afl. 4.0 million), import duties (+Afl. 3.8 million), and foreign exchange tax (+Afl. 2.5 million).

Tourism

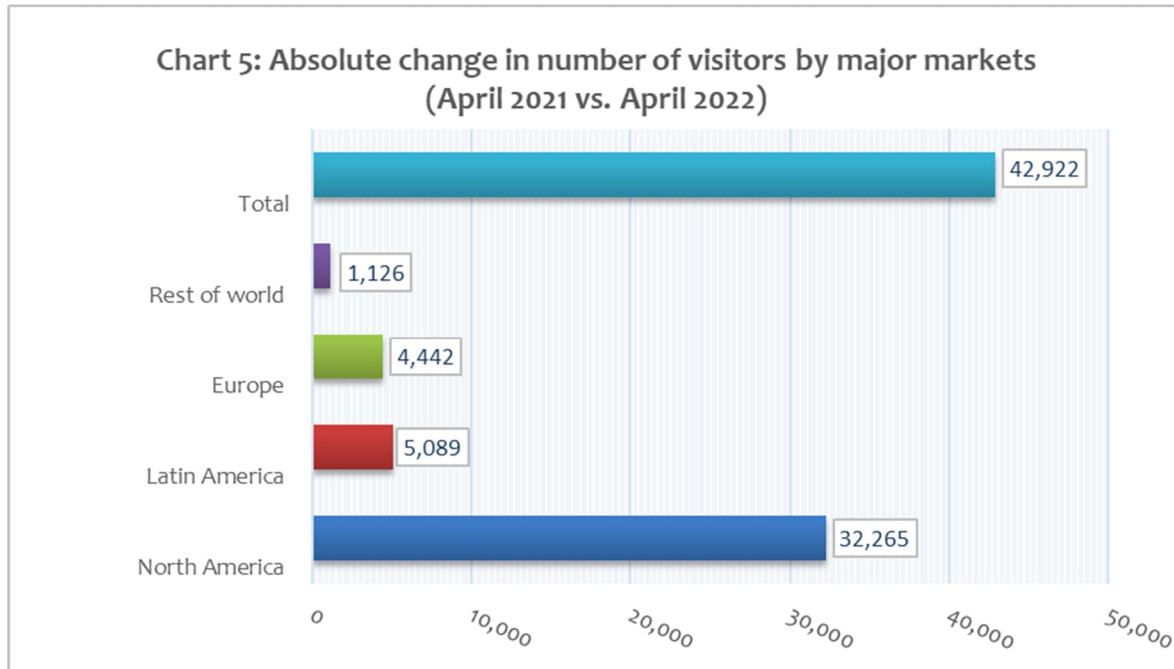

The number of stay-over visitors amounted to 101,696 in April 2022, which is 42,922 visitors (+73.0 percent) more than in April 2021.

The North American market, the Latin American market, and the European market increased by 32,265 visitors (+60.2 percent), 5,089 visitors (+307.5 percent), and 4,444 visitors (+175.6 percent), respectively.

The surge in the North American market resulted from more arrivals from the United States (+29,560 visitors or +55.3 percent). The rise in the arrivals from the Latin American market was primarily due to more arrivals from Colombia, while the growth in the European market was due to more arrivals from the Netherlands.

In the month under review, the total number of nights spent in Aruba, as indicated by the visitors, increased by 64.0 percent to 689,616 as compared to the corresponding month for the year 2021. The average intended night stays experienced a decrease from 7.2 nights in April 2021 to 6.8 nights in April 2022.

The number of cruise visitors amounted to 36,963 in April 2022 and the number of ship calls was 21.

* The monetary survey consolidates the accounts of the Centrale Bank van Aruba, the commercial banks and the Government related only to the issuance of components of the money supply, i.e., coins and treasury bills. This survey shows the financial relationship between the monetary sector, whose liabilities include the money supply, and other sectors of the economy.

** Gross claims include loans granted as well as government bonds in the hands of the monetary sectors and claims resulting from the issuance of treasury bills, cash certificates, and coins.

*** Revaluation differences of gold and official foreign exchange holdings are excluded in order to approximate the net import of foreign funds by the nonmonetary sectors.

1) The Diversification Index measures the concentration within the tourist market, and thus demonstrates the degree of diversification by tourist origin countries. The higher the index, the higher the level of concentration, meaning less diversification. For further reference on the methodology (which is an application of a Herfindahl-Hirschman index) see the Quarterly Bulletin (2011-I) of the CBA.
