I. Main economic indicators

Monetary developments

In November 2022, money supply contracted by Afl. 10.4 million to Afl. 5,371.5 million, compared to October 2022, resulting from a drop in net domestic assets (-Afl. 28.2 million) and an increase in net foreign¹ assets (+Afl. 17.9 million) (See Chart 1).

Source: Centrale Bank van Aruba

Money, as a component of broad money, declined by Afl. 13.8 million to Afl. 3,328.0 million, resulting from decreases in both demand deposits (-Afl. 12.1 million) and money in circulation (-Afl. 1.8 million). The reduction in demand deposits was due to a contraction in deposits denominated in both foreign currency (-Afl. 11.0 million) and Aruban florin (-Afl. 1.1 million). In contrast, quasi-money rose by Afl. 3.4 million to Afl. 2,043.5 million, due to

¹ Excluding revaluation differences of gold and foreign exchange holdings.

increases in savings denominated in both Aruban florin (+Afl. 6.9 million) and foreign currency (+Afl. 1.5 million). In contrast, time deposits denominated in Aruban florin (-Afl. 4.0 million) decreased.

The contraction in the domestic component of the money supply was caused by decreases in both domestic credit (-Afl. 15.7 million) and non-credit-related balance sheet items (-Afl. 12.6 million). The decline in domestic credit was due to lower net claims of the banking sector on the public sector (-Afl. 31.0 million) and higher claims of the banking sector on the private sector (+Afl. 15.3 million). The drop in net claims of the banking sector on the public sector was the result of an increase in government deposits (+Afl. 31.1 million). The increase in claims of the banking sector on the private sector (Chart 2) resulted from higher housing mortgages (+Afl. 7.9 million), consumer credit (+Afl. 4.1 million), and loans to enterprises (+Afl. 3.4 million).

In November 2022, the increase in net foreign assets of the banking sector was due to net purchases of foreign exchange of Afl. 332.7 million from the public, mostly related to foreign exchange revenue from tourism exports. These were largely offset by net sales of foreign exchange of Afl. 314.8 million to the public, mainly associated with payments for goods imports (Table 1).

Inflation

The consumer price index (CPI) for November 2022 noted a 6.6 percent rise year-over-year (YOY), compared to a 7.0 percent increase (YOY) for October 2022 (Chart 3).

Source: Centrale Bank van Aruba

The main contributors to this increase were the “Housing,” “Transport,” and “Food and Non-alcoholic Beverages” components. In addition, the components “Household Operation,” “Restaurants and Hotels,” “Health”, “Clothing and Footwear”, and “Miscellaneous Goods and Services” also noted increases. The component “Communication” noted a decrease, while the other components remained unchanged. Furthermore, by excluding the effect of food and energy², the core CPI increased by 2.2 percent (YOY) (Table 2).

² Partly affects the housing and transport components.

Government

Total government revenue amounted to Afl. 122.1 million in November 2022, Afl. 16.0 million more than the same month of the previous year.

The expansion in government revenue resulted from an increase in tax revenue (+Afl. 25.3 million) and a decrease in nontax revenue (-Afl. 9.4 million).

The growth in tax revenue was mainly driven by expansion in income from profit tax (+Afl. 13.1 million) and import duties (+Afl. 6.9 million).

Tourism

The number of stay-over visitors amounted to 90,796 in November 2022, which is 10,926 visitors (+13.7 percent) more than in November 2021.

The North American market, the Latin American market, and the European market increased by 7,954 visitors (+12.0 percent), 2,432 visitors (+50.7 percent), and 233 visitors (+3.5 percent), respectively.

The surge in the North American market resulted from more arrivals from the United States (+5,675 visitors or +9.1 percent) and Canada (+2,234 visitors or +66.2 percent). The rise in the arrivals from the Latin American market was primarily due to more arrivals from Colombia and Argentina, while the growth in the European market was due to more arrivals from Italy and the United Kingdom.

In the month under review, the total number of nights spent in Aruba, as indicated by the visitors, increased by 10.2 percent to 656,952 as compared to the corresponding month for the year 2021. The average intended night stays experienced a decrease from 7.5 nights in November 2021 to 7.2 nights in November 2022. The number of cruise visitors amounted to 104,843 in November 2022 and the number of ship calls was 47.

* The monetary survey consolidates the accounts of the Centrale Bank van Aruba, the commercial banks and the Government related only to the issuance of components of the money supply, i.e., coins and treasury bills. This survey shows the financial relationship between the monetary sector, whose liabilities include the money supply, and other sectors of the economy.

** Gross claims include loans granted as well as government bonds in the hands of the monetary sectors and claims resulting from the issuance of treasury bills, cash certificates, and coins.

*** Revaluation differences of gold and official foreign exchange holdings are excluded in order to approximate the net import of foreign funds by the nonmonetary sectors.

1) The Diversification Index measures the concentration within the tourist market, and thus demonstrates the degree of diversification by tourist origin countries. The higher the index, the higher the level of concentration, meaning less diversification. For further reference on the methodology (which is an application of a Herfindahl-Hirschman index) see the Quarterly Bulletin (2011-I) of the CBA.

2) Tourism credits is compiled from transactions in foreign currency, traveler's checks, and credit cards, as reported by the foreign exchange banks.
