

Monthly Economic Bulletin

June 2023

March 15, 2024

Issue no. 427

CENTRALE BANK VAN ARUBA

Cover design:

Mangroves are hotspots of biodiversity, connecting life on land with life below water. These 'forests of the sea' are essential to the health and vibrancy of our coastal ecosystems, including our community livelihoods. They provide a vital habitat for marine life, help to protect against coastal erosion and storm surges, as well as filter pollutants from the sea. Mangroves are one of nature's most effective tools in the fight against climate change and are integral to nature.

I. Main economic indicators

Monetary developments

In June 2023, money supply expanded by Afl. 174.0 million to Afl. 5,726.2 million, compared to May 2023, resulting from increases in both net domestic assets (+Afl. 167.0 million) and net foreign¹ assets (+Afl. 7.0 million) (See Chart 1).

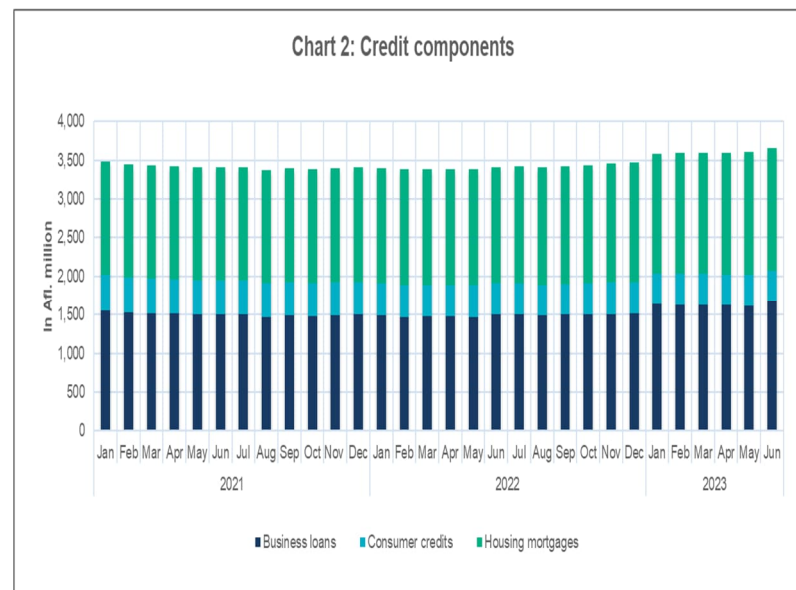

Source: Centrale Bank van Aruba

Money, as a component of broad money, surged by Afl. 168.3 million to Afl. 3,615.9 million, due to expansion in demand deposits (+Afl. 165.0 million) and money in circulation (+Afl. 3.3 million). The growth in demand deposits resulted from increases in deposits denominated in both Aruban florin (+Afl. 143.0 million) and foreign currency (+Afl. 21.9 million). Quasi-money rose by Afl. 5.7 million to Afl. 2,110.3 million, due to increases in both time deposits (+Afl. 4.7 million) and savings deposits (+Afl. 1.7 million) denominated in Aruban florin.

¹ Excluding revaluation differences of gold and foreign exchange holdings.

E-mail: statistics.department@cbaruba.org Website: www.cbaruba.org

The development in the domestic component of the money supply was caused by an increase in domestic credit (+Afl. 167.0 million) and a decrease in non-credit-related balance sheet items (-Afl. 25.2 million). The expansion in domestic credit was due to higher net claims of the banking sector on the public sector (+Afl. 134.6 million) and higher claims of the banking sector on the private sector (+Afl. 57.6 million). The rise in net claims of the banking sector on the public sector was the result of decreases in both government deposits (-Afl. 176.6 million) and gross claims (-Afl. 42.0 million).

Source: Centrale Bank van Aruba

The growth in claims of the banking sector on the private sector (Chart 2) resulted from increases in loans to enterprises (+Afl. 51.9 million) and housing mortgages (+Afl. 8.9 million), while consumer credit decreased (-Afl. 3.1 million).

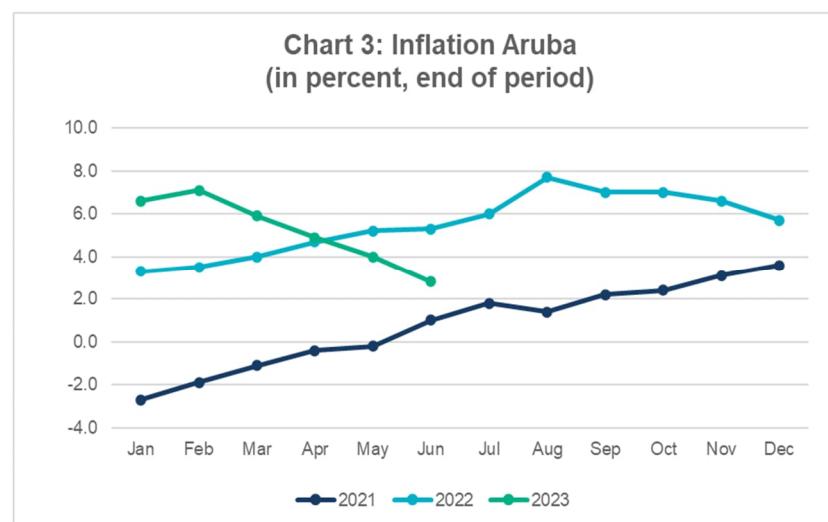

In June 2023, the growth in net foreign assets of the banking sector was due to net purchases of foreign exchange of Afl. 312.9 million from the public, mostly related to foreign exchange revenue from tourism exports. These were almost completely offset by net sales of foreign exchange of Afl. 305.9 million to the public, mainly associated with payments for goods imports (Table 1).

Table 1. Change in Net Foreign Assets (NFA) June 2023 (in Afl. million)	
Net purchases of foreign exchange	312.9
Tourism services	199.0
Items not yet classified	69.2
Net transfers from foreign accounts	37.4
Transportation services	4.8

Inflation

The consumer price index (CPI) for June 2023 noted a 2.8 percent rise year-over-year (YOY), compared to a 4.0 percent increase (YOY) for May 2023 (Chart 3).

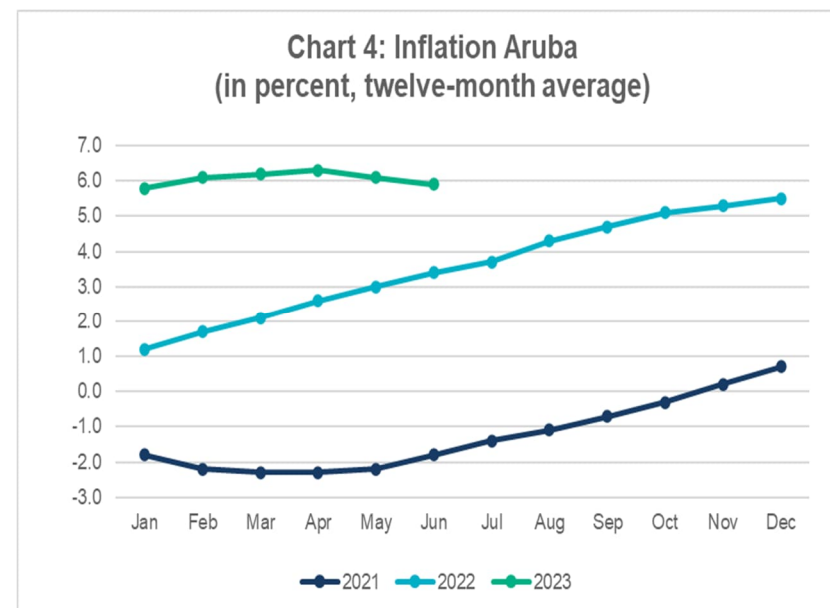

Source: Centrale Bank van Aruba

The main contributor to this increase was the “Housing” component. In addition, the components “Food and Non-alcoholic Beverages,” “Miscellaneous Goods and Services,” “Restaurants and Hotels,” “Household Operation,” and “Health” also noted an uptick. The components “Transport,” “Communication,” and “Recreation and Culture” noted decreases, while the other components remained unchanged. Furthermore, by excluding the effect of food and energy², the core CPI rose by 1.8 percent (YOY) (Table 2).

² Partly affects the housing and transport components.

Table 2: COMPONENTS OF INFLATION				
Inflation components	End-month		12-month

The 12-month average inflation rate was 5.9 percent in June 2023, compared to 6.1 percent in May 2023 (Chart 4).

Government

E-mail: statistics.department@cbaruba.org Website: www.cbaruba.org

Monthly Economic Bulletin June 2023

Total government revenue amounted to Afl. 138.4 million in June 2023, Afl. 17.3 million more than the same month of the previous year.

The expansion in government revenue resulted from increases in both tax revenue (+Afl. 12.2 million) and nontax revenue (+Afl. 5.1 million).

The growth in tax revenue was mainly driven by the expansion in income from turnover tax (B.B.O./B.A.V.P.) (+Afl. 8.2 million), hotel room tax (+Afl. 4.8 million), and land tax (+Afl. 1.6 million). In contrast, income from wage tax decreased (-Afl. 2.0 million).

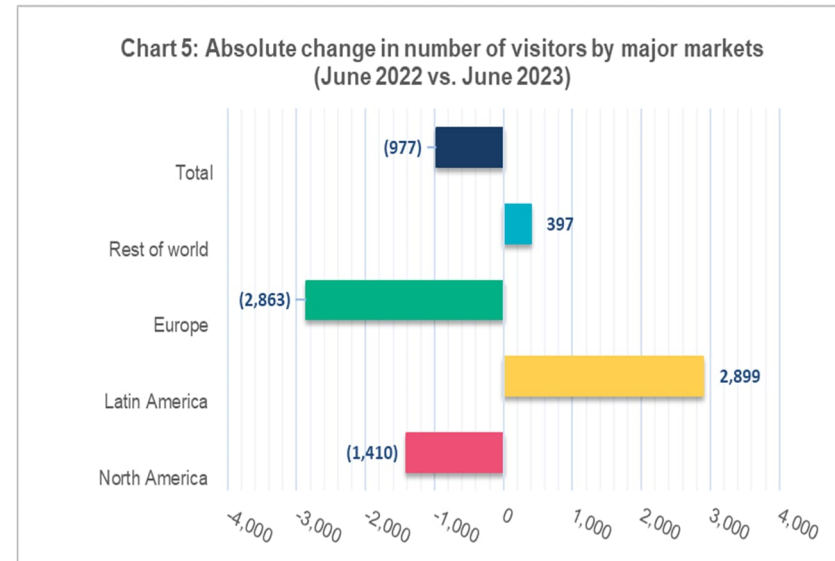

Tourism

The number of stay-over visitors amounted to 100,549 in June 2023, which was 977 visitors (-1.0 percent) less than in June 2022.

The European market and the North American market decreased by 2,863 visitors (-38.6 percent), and 1,410 visitors (-1.6 percent), respectively. In contrast, the Latin American market increased by 2,899 visitors (+35.7 percent).

The contraction in the European market was mostly driven by less arrivals from the United Kingdom and the Netherlands, while the drop in the North American market resulted from less arrivals from the United States (-1,526 visitors or -1.9 percent). The rise in the arrivals from the Latin American market was primarily due to more arrivals from Colombia.

In the month under review, the total number of nights spent in Aruba, as indicated by the visitors, fell by 1.7 percent to 676,426 as compared to the corresponding month for the year 2022. The average intended night stays experienced a slight decrease from 6.8 nights in June 2022 to 6.7 nights in June 2023. The number of cruise visitors amounted to 29,464 in June 2023 and the number of ship calls was 9.

B) Quasi-money	1,994.6	2,062.5	2,180.7	2,144.0	2,085.6	2,122.9	2,073.2	2,116.1	2,104.6	2,110.3

* The monetary survey consolidates the accounts of the Centrale Bank van Aruba, the commercial banks and the Government related only to the issuance of components of the money supply, i.e., coins and treasury bills. This survey shows the financial relationship between the monetary sector, whose liabilities include the money supply, and other sectors of the economy.

** Gross claims include loans granted as well as government bonds in the hands of the monetary sectors and claims resulting from the issuance of treasury bills, cash certificates, and coins.

*** Revaluation differences of gold and official foreign exchange holdings are excluded in order to approximate the net import of foreign funds by the nonmonetary sectors.

1) The Diversification Index measures the concentration within the tourist market, and thus demonstrates the degree of diversification by tourist origin countries. The higher the index, the higher the level of concentration, meaning less diversification. For further reference on the methodology (which is an application of a Herfindahl-Hirschman index) see the Quarterly Bulletin (2011-I) of the CBA.

2) Tourism credits is compiled from transactions in foreign currency, traveler's checks, and credit cards, as reported by the foreign exchange banks.
