## I. Main economic indicators

### Monetary developments

In June 2024, money supply expanded by Afl. 134.8 million to Afl. 5,980.3 million, compared to May 2024, resulting from increases in both net domestic assets (+Afl. 67.5 million) and net foreign<sup>1</sup> assets (+Afl. 67.3 million) (see chart 1).

Source: Centrale Bank van Aruba

Money, as a component of broad money, surged by Afl. 151.2 million to Afl. 3,661.7 million, due to a rise in demand deposits (+Afl. 150.3 million) as well as in currency in circulation (+Afl. 1.0 million). The growth in demand deposits resulted from an increase in deposits denominated in Aruban florin (+Afl. 207.0 million) and a decrease in deposits denominated in foreign currency (-Afl. 56.7 million). Quasi-money declined by Afl. 16.4 million to Afl. 2,318.7 million, due to a decrease in time deposits denominated in Aruban florin (-Afl. 57.0

million) and increases in savings deposits denominated in Aruban florin (+Afl. 29.8 million) and time deposits denominated in foreign currency (+Afl. 10.7 million).

In June 2024, the expansion in net foreign assets of the banking sector was due to net purchases of foreign exchange of Afl. 305.2 million from the public, mostly related to foreign exchange revenue from tourism exports. These were partially offset by net sales of foreign exchange of Afl. 237.8 million to the public, mainly associated with payments for goods imports (see table 1).

Net purchases of foreign exchange	305.2
Tourism services	222.0
Net transfers from foreign accounts	63.2
Direct investment	17.2
Primary income	1.4
Capital Account	0.9
Other investment	0.2
Government	0.2
Net sales of foreign exchange	-237.8
Goods	-127.9
Portfolio investment	-58.5
Other services	-35.4
Secondary Income	-8.9
Items not yet classified	-4.4
Transportation services	-1.4
Financial derivatives	-1.4
<b>NET CHANGE IN NFA (minus (-) denotes a decrease)</b>	<b>67.3</b>

The development in the domestic component of the money supply was caused by an expansion in domestic credit (+Afl. 98.3 million) and a decrease in non-credit-related balance sheet items (-Afl. 30.8 million). The growth in domestic credit resulted from higher net claims of the banking sector on the public sector (+Afl. 83.8 million) as well as higher claims of the banking sector on the private sector (+Afl. 14.5 million). The rise in net claims of the banking sector on the public sector was due to a drop in government deposits (-Afl. 83.7 million). The increase in claims of the banking sector on the private sector (see chart 2) resulted from more loans to enterprises (+Afl. 6.8 million), housing mortgages (+Afl. 6.6 million), and consumer credit (+Afl. 1.1 million).

Source: Centrale Bank van Aruba

## Inflation

The consumer price index (CPI) for June 2024 noted a 2.4% rise year-over-year (YOY), compared to a 2.6% increase (YOY) for May 2024 (see chart 3).

Source: Centrale Bank van Aruba

The main contributor to this increase was the “Communication” component. In addition, the components “Housing,” “Food and Non-alcoholic Beverages,” “Restaurants and Hotels,” “Miscellaneous Goods and Services,” and “Education” also noted an uptick. The components “Transport” and “Household Operations” noted a decrease, while the components “Beverages and Tobacco Products,” “Clothing and Footwear,” “Health,” and “Recreation and Culture”

Correspondence related to this monthly economic bulletin should be addressed to the Statistics Department of the Centrale Bank van Aruba via Website: [www.cbaruba.org](http://www.cbaruba.org) or E-mail: [statistics.department@cbaruba.org](mailto:statistics.department@cbaruba.org)

remained unchanged. Furthermore, by excluding the effect of food and energy<sup>2</sup>, the core CPI rose by 2.1% (YOY) (see table 2).

Inflation components	End-month		12-month	
	Jun-23	Jun-24	Jun-23	Jun-24
Food And Non-Alcoholic Beverages	0.7	0.3	1.2	0.4
Beverages And Tobacco Products	0.0	0.0	0.0	0.0

## Government

Total government revenue amounted to Afl. 189.6 million in June 2024, Afl. 51.2 million more than the same month of the previous year.

The expansion in government revenue resulted from increases in both tax revenue (+Afl. 50.2 million) and nontax revenue (+Afl. 1.0 million).

The rise in tax revenue was mainly driven by growth in income from profit tax (+Afl. 34.6 million), wage tax (+Afl. 6.3 million), turnover tax (B.B.O./B.A.V.P.) (+Afl. 4.8 million), and import duties (+Afl. 3.1 million).

## Tourism

The number of stay-over visitors amounted to 122,573 in June 2024, which was 21,055 visitors (+20.7%) more than in June 2023.

The North American market and the Latin American market increased by 14,725 visitors (+17.8%) and 6,629 visitors (+59.2%), respectively. In contrast, the European market fell by 360 visitors (-7.7%).

The growth in the North American market mainly resulted from more arrivals from the United States (+14,251 visitors or +17.6%). The rise in the arrivals from the Latin American market was primarily due to more arrivals from Colombia, while the drop in the European market was mostly driven by less arrivals from the Netherlands and Germany.

In the month under review, the total number of nights spent in Aruba, as indicated by the visitors, increased by 18.3% to 925,351 as compared to the corresponding month for the year 2023. The average intended night stays experienced a decrease from 7.7 nights in June 2023 to 7.5 nights in June 2024. The number of cruise visitors amounted to 43,031 in June 2024 and the number of ship calls was 11.

\* The monetary survey consolidates the accounts of the Centrale Bank van Aruba, the commercial banks and the Government related only to the issuance of components of the money supply, i.e., coins and treasury bills. This survey shows the financial relationship between the monetary sector, whose liabilities include the money supply, and other sectors of the economy.

\*\* Gross claims include loans granted as well as government bonds in the hands of the monetary sectors and claims resulting from the issuance of treasury bills, cash certificates, and coins.

\*\*\* Revaluation differences of gold and official foreign exchange holdings are excluded in order to approximate the net import of foreign funds by the nonmonetary sectors.

1) The Diversification Index measures the concentration within the tourist market, and thus demonstrates the degree of diversification by tourist origin countries. The higher the index, the higher the level of concentration, meaning less diversification. For further reference on the methodology (which is an application of a Herfindahl-Hirschman index) see the Quarterly Bulletin (2011-I) of the CBA.

2) Tourism credits is compiled from transactions in foreign currency, traveler's checks, and credit cards, as reported by the foreign exchange banks.

June	108.7	-0.6	-0.6	2.4	1.7
July	109.2	0.4	-0.2	2.8	1.8

As of January 2017, the weights are based on the Household Expenditure Survey held by the CBS in 2016.

A stylized map of Aruba is shown in dark blue on the left side of the page. A thick yellow line represents the coastline, separating the land from the ocean. The ocean is a lighter blue color. Several dark blue silhouettes of sea turtles are scattered throughout the water. On the right side of the page, there are horizontal white lines representing a window blind or a screen, with a sea turtle silhouette visible behind them.
