## PREFACE

We are pleased to present to you the 9<sup>th</sup> edition of the **ANNUAL STATISTICAL DIGEST (ASD), the ASD 2014**. This publication contains economic, financial and social data, mostly covering Aruba's financial, real, external and public sectors. A number of charts are also available for some of the data published.

Detailed notes are provided to tables produced in this digest, containing definitions, reconciliations between tables, as well as explanations of unusual features of the data.

We appreciate your comments to continue to improve current coverage and presentation of the data. These should be addressed to the Statistics Department via its e-mail address [statistics.department@cbaruba.org](mailto:statistics.department@cbaruba.org).

Jeanette R. Semeleer

## Annual Statistical Digest

### Contents

#### Preface *i*

#### General notes to the tables *vii*

#### Tables

#### Selected economic indicators *ix*

#### Gross domestic product Aruba and selected Caribbean countries *xiii*

#### Tourism Aruba and selected Caribbean countries *xv*

#### Social indicators *xvi*

#### A Real sector

- 1 Gross domestic product 3
- 2 Business perception results 5
- 3 Business perception survey  
(*Indices by selective sectors*) 9
- 4 Partial economic activity index 10
- 5 Indicators of tourism activity 11
- 6 Tourism 13
- 7 Growth in stay-over tourism  
(*Percentage changes*) 14
- 8 Consumer price index  
(*Percentage changes/period  
average*) 15
- 9 Consumer price indices 18
- 10 Percentage price changes 20
- 11 Construction activities 21
- 12 Utilities 23
- 13 Merchandise foreign trade  
by country 25
- 14 Merchandise foreign trade  
by product category 26
- 15 Oil refining 27

#### B Financial sector

- 1 Centrale Bank van Aruba -  
detailed balance sheet 35
- 2 Bank notes issued 37
- 3 Coins issued 38
- 4 Commercial banks -  
summary account 39
- 5 Commercial banks -  
detailed balance sheet 40
- 6 Loans to domestic sectors by  
kind of economic activity 44
- 7 Monetary survey 45
- 8 Components of broad money 47
- 9 Causes of changes in broad  
money 48
- 10 Foreign assets 50
- 11 Money-creating institutions -  
consolidated balance sheet 51
- 12 Nonmonetary financial institutions -  
balance sheet 55
- 13 Financial survey 57
- 14 Housing mortgages 59
- 15 Commercial banks - balance  
sheet 60
- 16 Commercial banks - income  
statement 61
- 17 Commercial banks – financial  
soundness indicators (*End-of-period  
figures in percentages*) 62
- 18 Offshore banks - balance sheet 63
- 19 Offshore banks - income  
statement 64
- 20 Bank-like institutions - balance  
sheet 65
- 21 Bank-like institutions - income  
statement 66
- 22 Bank-like institutions – financial  
soundness indicators (*End-of-period  
figures in percentages*) 67
- 23 Number of supervised institutions  
within the insurance sector 68
- 24 Nonlife insurance companies -  
balance sheet 69
- 25 Nonlife insurance companies -  
income statement 70
- 26 Nonlife insurance companies -  
financial ratios 71
- 27 Nonlife insurance companies - net  
earned premium by indemnity group 72
- 28 Nonlife insurance companies -  
income statement by indemnity  
group 73
- 29 Life insurance companies - balance  
sheet 80

- 18 Official foreign exchange rates (selling) per Afl. 100 *147*

**Explanatory notes to the tables *149***

## **General note to the tables**

The following symbols and conventions are used throughout this digest:

Blank : not available

0.0 : nil or less than half the final digit shown

... : not comparable or not fixed

d : discontinuity in the series; this sign will be accompanied by an explanatory note in the back section of this digest

p : provisional data

Users should also note that:

- a) Data in the tables are quoted in millions of Aruban florin (Afl.), unless otherwise stated.
- b) Owing to rounding of figures, the sum of separate items may differ in the final digit from the total shown.
- c) Data in the tables are subject to revision from time to time as more current or additional information becomes available.
- d) The tables are provided with sources. If that is not the case the Centrale Bank van Aruba is the source.

1) The Diversification Index measures the concentration within the tourist market, and thus demonstrates the degree of diversification by tourist origin countries. The higher the index, the higher the level of concentration, meaning less diversification. For further reference on the methodology (which is an application of a Herfindahl-Hirschman index) see the Quarterly Bulletin (2011-I) of the CBA.

1) Excluding persons employed with contractors.

\* Figures for imports and exports have been revised for the period between 2004 - 2010.

Source: Aruba's oil refining company.

\* As of October 10, 2010, the Netherlands Antilles was dissolved. This category continues to include the trade transactions between Aruba and the Dutch islands that formerly represented the Netherlands Antilles.

a. Loans to deposits ratio (maximum 80%)	75.1	74.7	69.4	67.1	66.5	71.0	68.2	72.9	73.2
b. Liquid assets to total assets <sup>3)</sup> (minimum 15%)	28.0	29.0	34.7	30.1	28.6	26.1	27.6	24.3	24.1
c. Liquid assets to short-term liabilities	81.2	82.6	88.7	71.5	75.6	61.4	61.2	57.5	58.9
<b>5. Sensitivity to market risk</b>									
a. Net foreign assets <sup>4)</sup> to regulatory capital	44.9	47.1	54.6	73.0	45.2	63.8	44.8	25.3	26.5

1) Large loans: all loans or lines of credit in excess of 15 percent of the institution's test capital.

2) Weighted averages related to new loans granted during the indicated period.

3) This is the Prudential Liquidity Ratio (PLR).

4) Denominated in foreign currencies only.

## Explanatory notes to the tables

### Table A1: Gross domestic product

Gross Domestic Product (GDP) and its components are calculated on the basis of the United Nations publication “A System of National Accounts, 1993”. The Central Bureau of Statistics (CBS) has published GDP figures for 1995 up to and including 2006.

Exports and imports of goods and services exclude crude oil and refined oil products. An estimation of the net value added of the oil sector is included in the data on exports.

The various GDP components are deflated individually and a weighted average of these individual deflators is used to derive an overall deflator, which in turn is used to calculate the real GDP.

Population data refer to the average of this variable at the beginning and at the end of each respective year.

### Table A2 and Table A3: Business Perception Survey (Results and indices by selective sectors)

These tables provide relevant information on the main economic developments during the given period, as well as a short-term outlook derived from the Business Perception Survey (BPS) conducted by the Centrale Bank van Aruba (CBA) since the second quarter of 2002. This BPS is a short questionnaire and is a widely used instrument that provides above-mentioned information. The information is based on the experience, judgment, and opinion of respondents, mainly leading businesses.

### Table A4: Partial Economic Activity Index

This table of the CBS gives the index as an indicator of variations in the volume of the turnover in seven sectors accounting for 71 percent of the total value added in Aruba.

### Table A5, Table A6 and Table A7: Tourism

These tables provide information about the tourism receipts and expenditures, the number of stay-over visitors and their nights spent on the island, the number of stay-over visitors by origin, the number of cruise passenger arrivals and ship calls, and the average hotel occupancy rate.

Gross tourism receipts include receipts from stay-over and cruise tourism, as well as from other tourism-related income as registered by the CBA. Travel-related expenditure include expenditure by stay-over visitors, before (e.g. pre-paid packages), during, and immediately after a trip as estimated by the CBS via a special survey. Average daily expenditure cover expenditure in Aruba only (thus, excluding expenditure on pre-paid packages), as calculated by the CBS. Average daily rate of hotels and revenue per available room are excluding timeshares. Room tax receipts are excluding tax receipts related to previous periods. Contribution to current account of the balance of payments is calculated by gross tourism receipts as a percentage of current account receipts, excluding the oil sector.

### Table A8, Table A9 and Table A10: Consumer price indices

As of December 2006, the consumer price index (CPI), produced by CBS, is based on the household expenditure survey conducted by the CBS during the months of April and May of 2006.

The CBS has also changed the classification system used in the household expenditure surveys from a national to an international agreed Classification of Individual Consumption according to Purpose (COICOP) system for consumer expenditures and prices, which provides a suitable classification for CPI purposes.

In order to calculate consistent annual rates of change with the new classification, the CPI has to be calculated retrospectively for 2 years. Therefore, December of 2006 has been chosen as the new base period for the CPI. Subsequently, the CPI figures for 2007 and 2008 have been revised accordingly.

To convert the indexes prior to December 2006 to the new base period, these indexes should be multiplied by the ratio of the new and old index. For instance, the indexes in column 1 “Total index” prior to December 2006 should be multiplied by the ratio 0.8306 i.e.,

$$\frac{\text{December 2006 (New index)}}{\text{December 2006 (Old index)}} = \frac{100.0}{120.4} = 0.8306$$

**Table A11: Construction activities**

This table includes data on the number of construction permits and the value of the building permits granted by the Department of Public Works, as well as the number of electrical installations approved by the Department of Technical Inspection.

The number of permits granted for the construction of houses and stores & shopping malls is excluding additions to and remodeling of existing houses and stores & shopping malls.

**Table A12: Utilities**

The table Utilities reflects the consumption of water, electricity and gas. The consumption of water is excluding sales to Aruba's oil refining company and vessels. Each category is presented on the basis of its standard unit of measure. The utilities index is calculated as a weighted average of the indexed consumption of water, electricity and gas. The weights used here are dynamic and fluctuate according to the relative significance (during a period) of the value of each consumption category in the aggregated value. Annual data are based on the year 1996 (=100), while quarterly data are based on an average of the year, since the quarterly data reflect only the consumption during a quarter, while the annual data is cumulative.

**Table A13 and Table A14: Merchandise foreign trade by, respectively, country and product category**

The data for these tables (by country and by product category) are collected through Customs administration using the automated Harmonized Commodity Description and Coding System. In this system, about 8,500 documents related to export and import are registered on a monthly basis. The CBS processes the import and export data using the International General Trade System. Certain types of goods are excluded from the data, e.g., monetary gold, securities, bank notes, coins in circulation, and postal items. Furthermore, goods consigned by a government to its armed forces and diplomatic representatives abroad (including embassies, consulates, the Cabinet of the Netherlands-Antillean and Aruban Affairs (VNO), the Cabinet of the Governor of Aruba representing the Queen of the Kingdom of the Netherlands, and the Marine Corps) are also excluded from

the trade statistics. These exclusions are in accordance with the recommendations of the United Nations. Mineral fuels are also excluded.

The country from which goods are imported is the country of consignment or provenance from which goods are dispatched to Aruba without any commercial transactions in intermediate countries. The country of export is the country of destination known at the time of dispatchment as the final country to which goods are delivered.

**Table A15: Oil refining**

This table provides the value of imports of crude oil and exports of refined oil, as well as the quantity of oil refined by Aruba's oil refining company.

Number of employees is excluding persons employed with contractors.

**Table B1: Centrale Bank van Aruba - detailed balance sheet**

*Columns:*

*(2) Other*

Mainly equipment and miscellaneous items.

*(5 and 6) Foreign assets:*

*Claims on banks*

Balances with foreign central and commercial banks in convertible and other currencies.

*Claims on governments*

Treasury bills and other securities issued by foreign governments and international organizations in convertible and other currencies.

*(10) Bank notes issued*

Bank notes held by the public and commercial banks.

*(13) Official entities*

Includes the Post Aruba N.V. the former post office.

*(16) Other financial institutions' deposits*

These institutions are bank-like financial institutions, such as mortgage and investment banks, licensed by the CBA to operate in the domestic market. Other nonbank financial institutions comprising, inter alia, insurance companies and pension funds, are included under column (17) "private sector".

*(17) Private sector*

Includes business enterprises, individuals, nonbank financial institutions and foundations.

*(18) Other*

Money in custody, other liabilities and CBA's current net income position.

**Table B3: Coins issued**

The government issues coins, which are, therefore, its liability. The CBA buys the coins and resells them at face value to the commercial banks and to the public.

**Table B4: Commercial banks – summary account**

It should be noted that the start of the new series as of end 1988 is due to a revision of the monthly reporting of the commercial banks.

The main changes are a) a switch to the reporting of gross loans after provisions for loan losses (allocated and unallocated) and b) elimination of the netting of loans with deposits of the same clients. As a consequence the amount of outstanding loans and of deposits has changed considerably.

Commercial banks are financial institutions licensed to carry out banking operations with residents. These banks grant loans, and have among their liabilities deposits transferable by check or otherwise usable in making payments.

Commercial banks' transactions resulting in claims on, and liabilities to, nonresidents are included in this balance sheet only if these transactions are an integral part of their total activities. Offshore businesses sheltered in a separate accounting unit (where claims on nonresidents are kept equal to liabilities to nonresidents so that no net open position arises) are not included in this balance sheet.

*Column:*

*(7) Capital and reserves:*

Includes subordinated debt.

**Table B5: Commercial banks – detailed balance sheet**

*Columns:*

*(6 to 9) Loans and advances:*

*Enterprises*

Commercial loans and advances to private and public enterprises and official entities. Public

enterprises consisting of, inter alia, among which the Telecommunications Company (SETAR), are companies producing goods and nonfinancial services, whose shares are fully or largely owned by the government.

*Mortgages*

Loans and advances to enterprises and individuals secured by real estate.

*Individuals*

Loans (including credit card loans) and advances to individuals, excluding mortgages.

*Government*

Loans and advances to the government, excluding official entities.

*(10) Premises*

The commercial banks' own buildings, other real estate, and equipment.

*(11) Subsidiaries*

Holdings of at least 10 percent of the equity capital of other companies and advances to these companies.

*(12) Accounts receivable*

Costs, commissions, dividends, rents, and other income earned or accrued, but not yet collected, as well as prepaid expenses not included in the banks' current profit and loss accounts.

*(21) Total assets*

The balance sheet total does not correspond with that of Table C1, because in this table interbank assets and liabilities have been netted out; the net figure is recorded in column (13) "other (net)".

*(22 to 25) Demand deposits*

Deposits withdrawable on demand, in the form of balances on checking and similar accounts. Also included are time deposits matured but not renewed.

*(26 to 29) Time deposits*

Deposits with a specific original maturity.

*(30) Savings deposits*

Deposits with certain withdrawal restrictions, but with no specific maturity condition.

*(31) Other liabilities*

Accounts payable, provision for loan losses and items not included elsewhere.

*(32) Capital and reserves*

Paid-up capital by residents, reserves, retained profits, and the banks' current net income position.

*(33) Subordinated debt*

Liabilities subordinated to claims of depositors and other creditors.

**Table B6: Commercial banks' loans to domestic sectors by kind of economic activity**

This table provides a distribution of resident commercial loans to economic sectors according to the third revision of the International Standard Industrial Classification (ISIC) of all economic activities of 1990 of the United Nations.

**Table B7: Monetary survey**

The monetary survey consolidates the accounts of the CBA, the commercial banks, and the government, related only to the issuance of components of money supply, i.e., coins and treasury bills. This survey shows the financial relationship between the monetary sectors, whose liabilities include the money supply, and other sectors of the economy.

*Net claims on public sector:*

*Gross claims*

Resulting from the issuance of coins and treasury bills. Gross claims include loans granted, as well as government bonds in the hands of the monetary sector.

*Net foreign assets:*

*Centrale Bank van Aruba*

Revaluation differences of gold, official foreign exchange and security holdings are excluded in order to calculate the net flow of foreign funds by the nonmonetary sectors.

**Table B8: Components of broad money**

"Money" consists of bank notes, coins and demand deposits of the private sector. It does not include government deposits, neither the deposits of the commercial banks with the CBA, nor their cash holdings. "Quasi-money" comprises time and savings deposits with the commercial banks and the CBA, as well as treasury bills and cash loan certificates held by

the private sector. This table shows the total liquid claims of the domestic private sector on money-creating institutions.

**Table B9: Causes of changes in broad money**

This table reflects the causes of changes in broad money broken down in net foreign assets and net domestic assets. The latter include the non-credit-related balance sheet items of the money-creating institutions.

*Inflow of foreign funds*

Financial flows arising from changes in market prices and exchange rates of gold, official foreign exchange and security holdings are excluded in order to calculate the net flow of foreign funds by the nonmonetary sectors.

**Table B10: Foreign assets**

Aruba's net foreign assets consist mainly of convertible claims on nonresidents and gold less convertible liabilities to nonresidents, including revaluation of gold. Aruba has no accounts with the International Monetary Fund, because it participates in this institution as part of the Kingdom of the Netherlands. Until the end of 2000, the gold holdings of the CBA was valued once every three years at the lowest yearly average market price for gold, converted into florin, in the three calendar years preceding the date of valuation, less 30 percent. Since December 31, 1998, gold has been valued at Afl. 368.58 (previously: Afl. 450.74) per fine troy ounce. Effective December 31, 2001, gold is valued on a quarterly basis at the prevailing market price. Financial flows arising from changes in these market prices and exchange rates of gold, official foreign exchange and security holdings of the CBA are included in the revaluation account.

*Column:*

*(9) Revaluation differences*

Revaluation account for gold, official foreign exchange and security holdings.

**Table B11: Money-creating institutions - consolidated balance sheet**

*Money-creating institutions*

These are the CBA, the government and the commercial banks.

*Claims on money-creating institutions:*

*Monetary authorities*

These are institutions (the CBA and the government) that create base money.

*Other domestic assets*

Mainly equipment and miscellaneous items.

*Revaluation differences*

Revaluation account for gold, official foreign exchange and security holdings. In accordance with the Central Bank Ordinance as revised in December 1989, valuation changes arising from changes in the market prices and exchange rates of gold, official foreign exchange and security holdings are accounted for in a revaluation reserve.

*Other domestic liabilities*

Money in custody, miscellaneous items and other liabilities.

**Table B12: Nonmonetary financial institutions - balance sheet**

This table provides the financial positions of the nonmonetary financial institutions with residents and nonresidents. It comprises mortgage banks, pension funds, life insurance companies, finance companies, the Aruban Investment Bank, the Social Security Bank and IBA Corporation N.V (established in October 2003 to support the settlement of the take-over of Interbank Aruba N.V. by Aruba Bank N.V.). As of 2009, also nonlife insurance companies are included.

**Table B13: Financial survey**

The financial survey provides an overview of the activity of the financial sector as a whole. It covers financial positions of the financial sector with other domestic sectors and nonresidents. It comprises the accounts of the CBA, the Treasury (the government, related only to the issuance of components of money supply, i.e., coins and treasury bills), the commercial banks, and the aggregated accounts of the nonmonetary financial institutions, comprising mortgage banks, pension funds, life insurance companies, finance companies, the Aruban Investment Bank, the Social Security Bank and IBA Corporation N.V (established in October 2003 to support the settlement of the take-over of Interbank Aruba (N.V.) by Aruba Bank N.V.). As of 2009, also nonlife insurance companies are included.

**Table B14: Housing mortgages**

This table provides the housing mortgages loan portfolio of the financial sector, including the nonmonetary financial institutions.

**Table B20: Bank-like institutions - balance sheet**

*Allocated loan loss provision (ALLP):* The ALLP is a specific provision formed against potential losses on particular loans, i.e. whereby full repayment is not expected to occur.

*Unallocated loan loss provision (ULLP):* The ULLP is considered as a special form of a dynamic determined provision related to the general risk of credit institutions, which originates from granting loans and conducting other banking activities.

**Table B22: Bank-like institutions - financial soundness indicators**

*Regulatory capital:* The regulatory capital is used as a measure to assess the credit institution's capital adequacy against its weighted risk value. The regulatory capital consists of "core capital" (Tier I) and "supplementary capital" (Tier II).

*Nonperforming loans:* Loans with a past due status of over 90 days on the payment of interest or principal are considered to be nonperforming.

**Table B25: Nonlife insurance companies – income statement**

*Net premiums:* Net premiums consist of the sum of direct written premiums and assumed premiums, less ceded premiums, and adjusted for changes in the unearned premium provision.

*Net claims:* Net claims consist of the sum of direct claims paid and assumed claims paid, less ceded claims recovered, and adjusted for changes in the net claims provision.

**Table B30: Life insurance companies – income statement**

*Net premiums:* Net premiums consist of the sum of direct written premiums and assumed reinsurance premiums, less ceded reinsurance premiums.

*Net claims:* Net claims consist of the sum of death claims, maturities and lapses, surrenders and other claims, less ceded claims recovered.

**Table C1: Interest rates of commercial banks**

*Averages of month-end rates*

This table covers interest rates based on month end averages of all banks' rates for domestic activities. Current account balances are usually non-interest bearing.

**Table C2: Interest rates of commercial banks**

*Weighted averages related to transactions during the indicated period*

As of September 1998, the CBA introduced a new method to report and calculate the interest rates on deposits and loans of the commercial banks. The interest rates shown represent the period weighted average rates of these banks on new loans and deposits for domestic activities. Nominal interest rates are used for the deposits. An annual percentage rate (APR) is calculated for the interest rates charged on consumer credit. A weighted average rate of interest is calculated for both deposits (i.e., time and savings) and loans (i.e., individual and commercial). Subsequently, a margin between the credit and debit rate is computed.

**Table D1 and Table D2: Government financial operations**

These tables provide a summary of the financial operations of the government on a cash basis, including imputed noncash transactions such as the transactions related to the hotel guarantee issue and the APFA debt conversion.

The government as defined by the CBA, comprises all departments, including the Department of Public Works (DOW), "Landsbedrijf Ontwikkelingsprojecten" (LOP) and the Fondo Desaroyo Aruba (FDA). Thus, excluded are the social security sector, which comprises mainly the Social Security Bank (SVb) and the General Health Insurance (AZV).

In December 2004, following the approval by the Parliament of Aruba of the privatization of the civil servants pension fund, APFA, an agreement between the government and the APFA was reached on a debt conversion pertaining to existing payment arrears in

premiums and cost of living allowances and private loans extended by the APFA to the government. The conversion consisted of a 12-year bond and a 35-year annuity loan, while a small part will be settled against future tax liabilities of APFA to the government.

The government finance data for the period between 1992 and 2003 were also revised to include the government's debt assumption, including a debt forgiveness, related to the hotel guarantees issued in the past.

*Revenue and grants*

Comprise receipts recorded by the Tax Collector's Office, the Department of Finance and the CBA. Tax and nontax revenues are classified according to the nature of the base on which the tax is levied or the kind of action which creates the obligation concerned. Grants are unrequited, non-repayable, noncompulsory receipts from other governments or international institutions. Grants and debt forgiveness are also included in nontax revenue.

*Expenditure*

The level of expenditure is derived as a residual of total registered revenue (including grants minus net lending) and net financing. The Department of Finance provides information on the nature of the expenditure. Items n.i.e. (not included elsewhere) is a residual, and thus includes errors and omissions. In 2000 and the fourth quarter of that year, the Afl. 36.7 million debt settlement resulting from the separation of funds associated with the Status Aparte of Aruba in 1986 was reclassified from a current transfer in the "items not included elsewhere" to a repayment of debt in the item "net foreign capital".

*Lending minus repayments*

This category covers government payments leading to financial claims upon others or to government equity participation in the ownership of enterprises, minus receipts reducing or extinguishing such claims or equity holdings undertaken for public policy purposes.

*Net financing*

Net financing comprises net foreign capital, nonbank domestic capital, and the net recourse to the monetary system of the government.

#### *Net foreign capital*

Includes net-borrowing on behalf of public institutions, bonds issues and private placements on international markets.

#### *Net domestic capital*

Includes net-borrowing from nonmonetary sectors, mainly by issuing government bonds and the reclassification of the debt settlement mentioned in the heading expenditure.

#### *Net recourse to the monetary system*

Includes commercial banks loans to the government, purchases of government bonds by those banks, drawing on governments' deposits and treasury bills issue.

#### *Memorandum items*

The unmet financing requirements comprise all registered payment obligations to other sectors, irrespective of the time frame in which they mature. The financial deficit under this heading includes the change in the unmet financing requirements.

#### **Table D3: Government revenue**

This table provides a detailed overview of the total government revenue, subdivided into taxes, and nontax revenue.

In March 2003, a debt forgiveness amounting to Afl. 171.7 million granted by the Italian export credit insurer, SACE, to the government as part of the settlement of the hotel guarantees issued in the past was classified as a capital transfer and registered in the item other nontax revenue.

#### **Table D4: Government position with the monetary system**

This table covers the government's financial position with the CBA and the commercial banks. It gives an overview of the government's deposits with the CBA and the local commercial banks and its liabilities to the monetary authorities and local commercial banks.

#### **Table D5: Outstanding government debt**

This table gives a detailed overview of the outstanding government debt based on information provided by the Department of Finance, the APFA and the CBA. The total debt, excluding the outstanding government guarantees, is divided into a domestic and a foreign debt component. The domestic debt

comprises negotiable and non-negotiable debt, which is further divided into short and long term. The foreign debt, valuated at end-of-period exchange rates, includes the debt to the Netherlands, the European Investment Bank, the United States and a residual category, comprising among others the Netherlands Antilles. With regard to the latter, governments bonds held by nonresidents are also included.

Data on outstanding government debt for the period between 1992 and 2003 were revised to reflect the government's debt assumption related to the hotel guarantees issued in the past.

#### **Table E1: Balance of payments summary** *Current, capital and financial account*

The balance of payments records payments and receipts between residents and nonresidents on goods, services, income, and current transfers, as well as changes in Aruba's claims on, and liabilities to the rest of the world. The basic data to compile the balance of payments are obtained from residents (with the exception of companies with a nonresident status, i.e., offshore companies), who are legally obliged to report to the CBA their transactions with nonresidents. In practice, licensed foreign exchange banks, operating either as intermediaries or on their own behalf, report the bulk of the transactions. Local companies, including the Oil Refinery, holding accounts with nonresidents are also obliged to report. Changes in the balance on these accounts are registered either as an increase or a decrease in currency and deposits included in other investment, as well as in other capital included in direct investment. Other quarterly and annual reports of enterprises are also used for obtaining additional information on, inter alia, foreign assets and liabilities.

#### *Items not yet classified*

Within the balance-of-payments system of closed and consistent returns, these items related to transactions which have already resulted, within a given recording period, in payments or settlements within the monetary sector but of which the nature of the underlying transactions in the nonmonetary sectors is not yet known. As soon as this information is available these items are entered in the current or capital and financial

account. Profits and losses on foreign exchange transactions of the CBA and the commercial banks as well as revaluation differences of foreign claims and liabilities of the commercial banks are also included.

#### *Banking transactions*

Banking transactions cover all capital and financial transactions of authorized foreign exchange banks carried out for their own account. These transactions comprise, among other things, loans to and from foreign banks and nonbanks and their redemptions, the placement of notes with nonresidents issued for their own account. Changes in their liquid claims and liabilities are also included.

#### *Increase (-) in official reserves*

The official reserves comprise all claims and liabilities of the CBA vis-à-vis nonresidents. Changes in the official foreign exchange reserves (excluding revaluation differences of gold, foreign exchange and security holdings) cover all changes in claims on and liabilities to nonresidents of the CBA denominated in foreign currencies, as well as changes in Aruban florin accounts held with the CBA by nonresidents.

#### **Table E2: Balance of payments by sector**

The balance of payments is broken down by the oil and the non-oil sector, including the public sector.

#### **Table E3: Components of the current account**

##### *Goods*

Goods comprises import and export related payments of crude oil and oil products, as well as import and export related payments by freezone enterprises and by sectors other than the oil and free-zone sectors effectuated through the banking system and notified foreign accounts. Non-oil merchandise import payments by the oil sector, goods procured in ports and repair goods are also included. Based on new information obtained corrections have been made for the series-data of imports and exports of the oil-sector for the period 2004-2010.

##### *Services:*

##### *Transportation*

Transportation contains, among other things, harbor dues and fees, and passenger fares. Data on transportation are based on the relevant payments. However, adjustments are

made to allow for the fact that in the balance of payments goods are recorded consistently as a f.o.b. basis.

##### *Travel*

This component consists of tourism receipts transactions in foreign currency, traveller's checks, and debit and credit cards as reported by the foreign exchange banks, as well as companies holding notified foreign accounts. Goods taken out of Aruba by tourists paid for in foreign currency, traveller's checks or debit and credit cards can also be classified as tourism receipts. As of 2006, the CBA has made a revision in the compilation of the tourism data. This decision to adjust these data has come after extensive research and consultation with various counterparts, both locally and internationally. The problem with the tourist data was that in the foreign exchange reports there was no clear distinction made between debit and credit card payments of both residents and nonresidents. This implied that the CBA had to make certain assumptions in order to publish data on both tourism receipts (from nonresidents) and tourism payments to abroad (of residents). With the additional sub-reports now received from the commercial banks CBA is better equipped to determine the inbound and outbound tourism data. Transactions related to medical treatment and expenditures of students are also included under "travel".

##### *Government services n.i.e*

Included as inflows are payments by the government of the Netherlands in connection with its representative office in Aruba (including the Dutch Royal Navy). Outflows comprise, among others, payments by the Aruban government related to its representative office in the Netherlands ("Aruba Huis") and payments by Aruba Tourism Authority for tourism promotion abroad.

##### *Other services*

These services mainly include management fees, transactions for industrial maintenance, contracting works, royalties, postal and telecommunication charges, insurance services, financial services, computer and information services, rents and leases.

### *Income*

Income covers profits and dividends receipts and payments on equity investments and participations, as well as interest on public and private sector loans, debt securities, and foreign assets and personal earned income.

### *Current transfers*

Private transfers, i.e., workers' remittances and other current transfers of individuals as well as pension, alimony and other support remittances and official transfers, i.e., grants for social and cultural projects and contribution to the Solidarity fund.

### **Table E4: Components of the capital and financial account**

#### *Capital account*

Capital account consists of capital transfers and acquisition/disposal of non-produced nonfinancial assets. Capital transfers cover migrants' transfers and transfers in connection with development aid (capital grants).

#### *Financial account*

Financial account covers direct investment, portfolio investment, financial derivatives, and other investment. The latter is subdivided into loans and other financial transactions.

### **Table E5: Balance of payments of the oil sector**

This table summarizes the balance of payments' transactions of the oil sector. Transactions of Aruba's oil refinery and its related businesses and other importers of oil for the local market, which are settled through the banking system as well as through foreign accounts.

### **Table E6: Balance of payments of the non-oil sector**

This table covers the international transactions of the non-oil sector, including free-zone sector and rest of the economy, which are settled through the banking system, notified foreign accounts of residents and other quarterly reports.

### **Table E7: Breakdown of merchandise trade**

Exports and imports are recorded on f.o.b. basis and are divided into general merchandise, goods for processing, goods procured in ports by carriers, repairs on goods and nonmonetary gold. Based on new information obtained corrections have been

made for the series-data of imports and exports of the oil-sector and reclassification of goods for processing to general merchandise for the period 2004-2010.

### **Table E8 and Table E9: Incoming and outgoing money transfers by country**

These tables provide information on incoming and outgoing transfers by country effectuated via the registered and exempted money transfer companies.

### **Table E10 and Table E11: Portfolio investment assets by security and by country of nonresident issuer, respectively**

The CBA collects on an annual basis through its Coordinated Portfolio Investment Survey (CPIS) annual data on the positions of crossborder equities, long-term debt instruments (bonds and notes) and short-term debt instruments (money market instruments), broken down by country of residence of issuer.

### **Table E12 and E13: Inward Direct Investment Positions by instrument and by country of investment**

These tables provide an overall view of the inward direct investment in Aruba broken down by instrument and country of investment. The CBA conducts an annual Direct Investment Survey (DIS) for collecting the direct investment related data on inward direct investment positions by immediate counterpart country, consisting of equity and debt instruments. Inward direct investment is when a foreign direct investor owns equity in a resident enterprise that entitles it to 10 percent or more of the voting power in the resident enterprise. Equity comprises all instruments and records acknowledging after the claims of all creditors have been met as well as claims on the residual value of a corporation, such as shares and retained earnings. Debt instruments (intercompany lending, which include both liability and claim) describe the debt positions between the resident enterprise and its foreign affiliated enterprise(s) and comprise debt securities and other debt instruments such as loans, trade credit and advances and other accounts payable/receivable. Net inward debt positions comprise liabilities to minus claims on the foreign affiliated enterprise(s).

**Table E14 and table E15: Gross external debt position (GEDP)**

These tables give a detailed overview of the disbursed and outstanding amount of those actual current, and not contingent, liabilities that require payment(s) of principal and/or interest by the debtor and that are owed to nonresidents by residents of Aruba. The CBA conducts on an annual basis the External Debt Statistics Survey to collect debt data for the nonmonetary financial institutions and public and private nonfinancial corporations. These data are used to compile the GEDP of Aruba together with other sources already in CBA's possession.

Intercompany lending between entities in a direct investment relationship is separately presented because the nature of the relationship between debtor and creditor is different from that for other debt, and this affects economic behavior. Included in intercompany lending is only 'other capital'. Other components, such as equity capital and reinvested earnings, are not included. The amounts included in the intercompany lending are gross liabilities owed to nonresident affiliates. The amounts are therefore not offset with claims on nonresident affiliates.

**Table E17: International investment position (IIP)**

This table provides an overall view of cross-border assets and liabilities of Aruba, presented by the functional categories direct investment, portfolio investment, other investment, and reserve assets. The latter comprise, inter alia, gold bullion held by the CBA.

**Table E18 and Table E19: Official foreign exchange rates (selling)**

The Banks' minimum selling rates for officially quoted currencies for customers. The foreign exchange banks' selling rates of the currencies shown in the table are fixed daily by the CBA on the basis of middle market rates quoted for those currencies against the U.S. dollar.

Officially quoted rates for other currencies are determined by means of a fixed percentage margin on either side of the middle rate for each currency. Offshore customers, or customers with larger amounts of foreign currency to be bought or sold, may negotiate

an exchange rate to settle transactions with their banks.

On January 1, 1999, the ECU was replaced by the euro. Also on January 1, 2002, the euro replaced the Netherlands guilder, the French franc, the German mark and the Italian lire.

Rates at which foreign exchange banks will buy and sell the U.S. dollar from and to the public:

	minimum buying rates		maximum selling rates
as from:		bank notes	cheque and cable transfers
Jan. 1, 1986	1.77	1.79	1.81
May 18, 1987	1.77	1.78	1.80
